September, 2011

Dear Parents:

Recently, the Association for Career and Technical Education (ACTE) asked our district to participate in a survey to evaluate the success of our career and technical education programs. We will be surveying a variety of populations to achieve the best response. These include students, professional staff, Advisory Committee members, alumni, and parents. The survey results will be used to evaluate our approach to career education to determine if our program is offering the proper resources and how these resources have a measurable effect on our students. It's that simple – how are we preparing students for life after high school?

We can all agree that educating our students for their success after high school is our goal. Whether it be joining the workforce immediately, or pursuing a postsecondary education, we strive to provide an environment for success.

We ask for your assistance in taking a few moments to complete a very brief online survey. Your input will be useful as we continue our "Tradition of Excellence." Thank you for your support in this initiative.

Please go to the website below to complete the survey.

If I can provide additional information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Christopher Cummings", with a long horizontal flourish extending to the right.

Christopher Cummings
Assistant Superintendent-Director/Principal
